**Concordia University  
EV Building, Room 12.163**

## **More about Stratos:**

Stratos Aviation, connecting and empowering today's youth to dream big and promote STEM (Science, Technology, Engineering and Math) careers in the aviation industry with an emphasis on pilot careers.

Stratos Aviation is a non for profit company dedicated to promote careers and opportunities in the aviation industry through outreach events and activities, aviation and flight experiences through the Stratos Aviation Flight Club and our dedicated Simulator Center.

At Stratos Aviation we are bringing the aviation and pilot community together to empower our youth and future generations of aviation enthusiast to pursue rewarding careers and opportunities in the aviation industry.

EV Building 1515  
St Catherine W

# About AHS Concordia

The American Helicopter Society (AHS) Concordia Chapter strives to develop the ingenuity of undergraduate and graduate helicopter enthusiasts. The AHS Concordia Chapter's mission is to educate engineering students on the vertical flight industry through speaker series with aerospace professionals, tours of aviation plants, and exclusive networking events. Additionally, to help students get hands-on experience the AHS Concordia team designs and assembles a Micro Air Vehicle (MAV) to participate in yearly drone competitions.

For more Info, visit our Facebook page @AHSConcordia or our Website at [www.ahsconcordia.com](http://www.ahsconcordia.com)
